

Don't Delay: It's Time to Start Grant Applications

The Fall 2019 NC Division of Water Infrastructure Grant Cycle: Grants for Water, Sewer, and Stormwater Infrastructure

Does your community have a critical infrastructure project that you would like to have considered for upcoming Department of Environmental Quality, Division of Water Infrastructure funding opportunities? Potential projects include these and many more:

- Water line extensions
- Sewer line extensions
- Water system improvements
- Sewer system improvements
- Stormwater management and improvements

How We Can Help

Over the past two years, McGill has assisted over 50 communities and utility districts in North Carolina in successfully securing over \$58,000,000 in grant and loan funds to provide critical infrastructure and community livability improvements benefiting thousands of people.

Grant Deadline: September 30, 2019

Our team of engineers and grant specialists are knowledgeable and ready to develop your ideas into competitive projects. **Let us hear from you!**
